# The Difference of *Quality*

Often we hear, “There’s just something about the quality that makes them different.” Yes, there is a difference. And it’s pretty easy to explain:

Since 1985, we’ve created designs that display classic proportions, resulting in structures that are works of art. We’ve paid keen attention to every detail. We’ve used only the finest materials. And our workmen are among that class of expert artisans known throughout the world as masters of their craft. Finally, we’ve made a habit of offering unrivaled customer service.

Quite simply, that’s the *quality* difference. It comes standard with every pavilion we sell.

# Standard Vinyl Pavilions

Don't let the word "standard" fool you. It simply refers to a pavilion that you can get quickly, without needing to make a lot of design choices we've already thought through. A standard vinyl pavilion is simple, classically styled, and made to the highest quality standards. It offers all the beauty and quality of a custom pavilion.

And being made of vinyl, the standard pavilion is maintenance free, so you can spend time enjoying it, rather than working on it.
